

Quarter 4

Science Project Choices

for First Grade

Due by Wednesday,May 28th

We are studying **Space**, so for this quarter students are responsible for choosing **one** of the topics below to present a **Written Report (form provided) and Model of their topic**. The model can be made out of paper, clay, cardboard, styrofoam etc. - but it should be 3 dimensional.

**Some ideas for the 3-D model might be: a "shadowbox," or shoebox, poster board (cut Styrofoam balls in half and paste on for planets) or a hanging mobile.

Our Solar System

Objective: Students can show how our solar system looks and the arrangement of the planets, sun, asteroid belts, etc....

Planets

Objective: Students can choose 1 planet from our Solar System to focus on its unique features, moons and how close it is to our sun.

Constellations

Objective: Students can choose 1 constellation of their choice to focus on what it looks like, how it got its name and how to find it in the night sky.

The Sun

Objective: Students can learn about the sun, what it looks like, what it's made of and how it effects the planets in our Solar System.

The Moon

Objective: Students can learn about Earth's moon and all of its unique features; craters, coloring and size.

Name: _____ **Due May 28th**

My Space Report

I chose to do my report on: _____

**Please write 2 things for each	Things I already KNOW	Things I WANT to Know	Things I LEARNED… From this project
1.			
2.			

Would you want to live there? Why or why not? _____

_____

How did you make your project? _____

_____

What materials did you use? _____

_____
